

Action Taken Report Based on Student Feedback Survey 2024-25

The valuable feedback received from the students during the academic year 2024-25 has been analyzed to identify areas of strength and areas requiring improvement. Based on these insights, the college has taken several significant steps to enhance the overall student experience in the college.

1. Sports Facility:

Feedback/Suggestion Received: Students suggested to enhance sports facilities and increase number of opportunities for participation in both indoor and outdoor sports activities within the college.

Action taken: In response to this feedback, the institution has taken several measures to promote sports and physical activities in the campus. Various sports equipment, including those required for **table tennis, badminton, cricket, and volleyball**, etc. have been procured to strengthen the available facilities. The college has also increased its representation in **inter-college tournaments** being organized by university, providing students with greater exposure and opportunities to showcase their sporting talents at a broader level.

2. Library Facility:

Feedback/Suggestion Received: Students suggested to increase the availability of academic resources in the library, particularly additional reference books and newspapers to help them to support their learning and keep them informed about current affairs.

Action Taken: In response to this feedback, the institution has taken steps to enrich the library's collection by procuring additional books based on students' academic needs and course requirements. Furthermore, the process for subscribing to additional newspapers, including "The Hindu," has been initiated to provide students with wider access to reliable news sources and to encourage regular reading habits. The institution also registered with the **National Digital Library of India (NDLI)** and **One Nation One Subscription (ONOS)** initiative of the central government. These platforms provide access to a vast collection of academic books, journals, research papers, and other educational resources. By facilitating access to these digital repositories, the institution aims to support self-learning, research activities, and academic enrichment among students. These measures aim to strengthen the learning resources available in the library and enhance the overall academic support for students.

3. Career Counseling:

Feedback / Suggestion Received:

Students expressed a strong interest in participating in programs and sessions focused on career guidance, indicating a need for structured support in understanding various career opportunities and pathways.

Action Taken:

In response to this feedback, the institution has organized several career guidance initiatives to assist students in making informed decisions about their future. These initiatives include sessions such as "**Pre and Post Admission Counselling**" and "**After Graduation: What Next?**" aimed at providing students with comprehensive information about academic options, career prospects, and professional development opportunities. These programs are designed to enhance students'

awareness, guide them in planning their career paths effectively, and support them in achieving their long-term professional goals.

4. Multipurpose Hall Facility

Feedback / Suggestion Received: Students requested to create a multipurpose hall in the college to facilitate the organization of academic, cultural, and co-curricular activities.

Action Taken:

In response to this feedback, the institution has created a **Multipurpose Hall** within the college premises to support various student and institutional activities. The facility is now being utilized for organizing seminars, workshops, cultural programs, and other events, thereby offering a suitable space for both academic and extracurricular engagements. This initiative aims to enhance the overall learning environment and encourage active student participation in diverse activities.
