

8) i) Adequate numbers of computers:

Government Degree College, Salooni has an adequate number of computers to support academic and administrative activities. Computers are available in different departments and offices of the college for teaching, learning, and official work. Students are also provided access to computers for educational purposes, ensuring the effective use of technology in the teaching-learning process.

**ii) Usage of computer hardware:**

Government Degree College, Salooni makes effective use of computer hardware to support academic and administrative activities. Computers, printers, scanners, and other digital devices are used in the offices, library, and departments for teaching, learning, documentation, and communication purposes. These facilities help in improving efficiency and promoting the use of technology in the teaching-learning process.
